

CLINTON-NEWBERRY NATURAL GAS AUTHORITY

SEVERE WEATHER

NOTICE

Dear Valued Customers,

Over the next 24 to 48 hours the Area served by CNGA is expected to be impacted by severe storms that will likely include high winds and a lot of rainfall. Please take a few moments prior to the storm's arrival to prepare. Ensure you have batteries and flashlights in the event you lose power as well as a good supply of fresh water and food.

If you use CNGA for your natural gas needs and experience a natural gas emergency or smell natural gas, please contact us at 864-833-1862 to schedule a technician to investigate it as soon as possible.

CNGA has a great line of gas heaters, cooking equipment and water heating equipment that does not require electrical power to operate. To see what CNGA can offer to keep you warm and comfortable, visit us on the web at cnga.sc.gov, come by our Clinton or Newberry locations, or call us at 1-864-883-1862.

Sincerely,

James Capps

General Manager

CNGA
